

Fixed Income Securities Terms and Conditions

Trading in fixed income securities (“bonds”) involves special characteristics and potential risks. These Terms and Conditions will always be available for your review under the “disclosures” link at the footer of the Lime Trading Corp. website.

Lime Trading Corp. offers bond information and bond trading from its clearing firms. A number of investment-grade bonds available online include:

- U.S. Treasury Bills, Notes, and Bonds
- Corporate Bonds
- Government Agency and Government Sponsored Enterprise securities
- Zero Coupon Government Bonds (STRIPs)
- Certificates of Deposit

As with stocks, **the value of bonds can fluctuate over time.** The prices of fixed income securities are affected by a variety of factors, including the general level of interest rates, credit quality, term to maturity, liquidity, coupon rate, call features, market and event news, and other factors. One of the factors with the most influence on bond prices is the level of interest rates. When interest rates are rising, the value of currently outstanding bonds will generally decline. This result is due to the fact that the coupon rate on new issues will correspond to the higher interest rates and therefore exceed the coupon rate paid by existing bonds. Conversely, as interest rates decline, the value of outstanding debt increases since new issues will generally have a lower coupon rate.

Bonds are debt obligations of the corporate or governmental entity that issues them. United States Treasury securities are backed by the full faith and credit of the United States government. The securities of other bond issuers (including state and local governments, corporations and some government-sponsored entities) **are subject to default and there is no federal guarantee of repayment.** Some bonds may be sold with insurance provisions, which requires an insurance company to make scheduled principal and interest payments (which may or may not equal the terms set forth in the bond itself) in the event that the issuer cannot make its payments in a timely manner.

You acknowledge and agree that all bids (offers) submitted on the Lime Trading Corp. trading platforms are limit orders and if executed will only be executed against offers (bids) on the Lime Trading Corp. trading platforms. You also agree and understand that Lime Trading Corp. does not route orders to any other venue for the purpose of order handling and execution. In addition, Lime Trading Corp. does not determine if the prices represented on the Lime Trading Corp. trading platforms are fair market value for the security or the best prices in the market. Accordingly, Lime Trading Corp. expressly denies best execution responsibility as defined under FINRA Rule 5310.

Cancellation instructions for pending orders can be submitted during trading hours, but such instructions are unlikely to be received before your order has been executed and are accepted only on a “**best efforts**” basis. The system shows only those securities currently held in the inventories of dealers linked to the system. Since other investors may also be entering orders, the **bonds shown may not be available when you place your order.** There may be other securities not shown through the system that are equally or more appropriate for your

The availability of an active secondary market now or in the future for the securities listed will impact your ability to sell your securities, whether at a profit, loss or at all. ***As with the trading of any security, the amount you receive in a sale may be more or less than the amount you invested.***

The minimum order size for most bonds offered is \$1,000 face value and trades occur in increments of \$1,000 face value. Also, certain bonds have a higher minimum quantity and/or different minimum trading increments.
